

ROBOTIC SUMMER CAMP

JULY 27TH - JULY 31ST

12:30-2:00 & 2:30 - 4:00

CENTRAL DEWITT MIDDLE SCHOOL STEM ROOM

This Robotics Camp is a summer opportunity for students to explore robotics through the use of Lego Mindstorms Robots. Students who are entering 3rd - 8th grade for the 2020 - 2021 school year are invited to register.

We will be having 2 sessions. The 1st session (beginner) is 12:30-2 and will be for students that are going into 3rd and 4th grade OR that have no robotic experience either with my camp OR FLL.

The 2nd session (advanced) is 2:30-4 and is for students that HAVE robotic experience AND going into 5th grade OR above. This will be a new style of camp called Lego SUMO.

Right now, there will only be 2 sessions and each session will be limited to 10 students. If there is enough interest, I might add another session.

*There will be NO partners or sharing robots/computers.

*I will sanitize between the sessions

*I will be reinforcing hand sanitizing before, during and after each session.

*I will not require face coverings but we allow face coverings for anyone that chooses to wear one. If students want one, we will have some available.

*There will NOT be a showcase where family come and watch...instead I will record their robots and send to parents and post to my class Facebook page.

Camp fees are \$50 and include a camp t-shirt.

To Register:

Email Terri Smith terri.smith@cd-csd.org

A link will be emailed to you for the online registration and new this year online payment.

*Registration is not complete until I receive your payment.
